

IBM

Exam Questions C1000-132

IBM Maximo Manage v8.0 Implementation

NEW QUESTION 1

Which three coverage options can be included on a contract line in a Warranty Contract? (Choose three.)

- A. Financial Loss
- B. Labor
- C. Children
- D. Shipping
- E. Replacement
- F. Materials

Answer: BCF

NEW QUESTION 2

In the Purchase Requisitions application and with default settings, what status does the Purchase Requisition change to when all of its lines have been copied to a Purchase Order or a Contract?

- A. INPRG
- B. COMPLETE
- C. CLOSE
- D. APPR

Answer: B

Explanation:

In the Purchase Requisitions application with default settings in IBM Maximo Manage, when all lines of a Purchase Requisition have been copied to a Purchase Order or a Contract, the status of the Purchase Requisition changes to COMPLETE.

NEW QUESTION 3

What combination of information on a Work Order is used to create a histogram in the Graphical Scheduling application?

- A. Craft/Skill Level Quantity and Hours
- B. Labor and Crew Hours
- C. Craft Quantity and Hours
- D. Crew Work Group Quantity and Hours

Answer: C

Explanation:

The Graphical Scheduling application in Maximo Manage v8.0 uses histograms to provide a visual representation of resource allocation. To generate these histograms for work orders, it relies on the following information:

? Craft Quantity: This refers to the number of personnel from a specific craft (e.g., electricians, mechanics) required to complete the work order.

? Hours: This represents the total number of hours that the specified craft is needed for the work order.

By combining these two pieces of information, the histogram displays the overall workload demand for each craft across the scheduled work orders. This allows schedulers to:

? Identify potential resource bottlenecks: See if there are periods where the demand for a particular craft exceeds its availability.

? Optimize resource allocation: Allocate crafts effectively to ensure that enough personnel are available to complete the work within the scheduled timeframe.

? Balance workloads: Distribute work among crafts to avoid overloading specific teams. (Reference: IBM Maximo Manage v8.0 documentation - Graphical Scheduling application)

NEW QUESTION 4

What can be done when decommissioning a location that cannot be done when decommissioning an asset?

- A. Roll New Status down to All Assets in All Changed Locations?
- B. Remove All Reference to This Location from All Contracts?
- C. Remove All References to This Location from All Job Plans?
- D. Delete Associated Service Addresses That will be made Redundant?

Answer: A

Explanation:

When decommissioning a location in IBM Maximo Manage, you can roll the new status down to all assets in all changed locations. This cannot be done when decommissioning an asset.

NEW QUESTION 5

What is the result of selecting the Validate GL Component Combinations in the Chart of Accounts application on financial transactions?

- A. Any GL component can be used.
- B. Any valid GL component can be used.
- C. Only valid GL accounts can be used.
- D. Validates transactions occurred during an active financial period.

Answer: C

Explanation:

When selecting the Validate GL Component Combinations in the Chart of Accounts application on financial transactions in IBM Maximo Manage, only valid GL accounts can be used.

NEW QUESTION 6

Which field on a Work Order is used to only schedule work during working time?

- A. Flow Action Assist
- B. Split Shift
- C. Constrain to Shift
- D. Interruptible

Answer: D

NEW QUESTION 7

A client has a requirement to manage access permits and risk assessments in Maximo. Which add-on provides this capability?

- A. Maximo Safety
- B. Maximo Health Safety and Environment
- C. Maximo Asset Configuration Manager (ACM)
- D. Maximo Spatial

Answer: B

NEW QUESTION 8

In which three applications can Asset Depreciation be configured?

- A. Chart of Accounts
- B. Tools
- C. Asset Templates
- D. Locations
- E. Assets
- F. Item Master

Answer: CEF

Explanation:

Asset Depreciation can be configured in the following three applications:

? C. Asset Templates: You can define depreciation settings within asset templates to standardize how assets of the same type depreciate. This ensures consistency and saves time when creating new assets. (Reference: IBM Maximo Manage v8.0 documentation - Asset Templates)

? E. Assets: Depreciation can be configured directly on individual asset records. This allows for flexibility if an asset has unique depreciation circumstances that differ from the template. (Reference: IBM Maximo Manage v8.0 documentation - Assets application)

? F. Item Master: When creating an item record that will be used as an asset, you can specify depreciation information. This is useful for items that are commonly capitalized and tracked as assets. (Reference: IBM Maximo Manage v8.0 documentation - Item Master application)

NEW QUESTION 9

Which statement is true regarding Master Preventative Maintenance (PM) records?

- A. Associated PM records can only be created for a rotating item's asset.
- B. Associated PM records can be created for a Master PM which does not have an item
- C. Associated PM records are temporary and expire after 90 days.
- D. Associated PM records can only be created for a rotating item's location.

Answer: B

Explanation:

Regarding Master Preventative Maintenance (PM) records in IBM Maximo Manage, associated PM records can be created for a Master PM which does not have an item.

NEW QUESTION 10

Which Maximo application can be used to generate replacement plans for assets?

- A. Maximo Predict
- B. Maximo Health
- C. Maximo Health, Safety and Environmental (HSE)
- D. Maximo Manage

Answer: B

Explanation:

IBM Maximo Health, part of the Maximo Application Suite, is specifically designed to enable comprehensive asset performance monitoring, including the capability to generate replacement plans for assets. With Maximo Health, users can assess an asset's remaining useful life, criticality, and health scores to make data-driven decisions about whether to repair, refurbish, or replace an asset.

Key features in Maximo Health that facilitate replacement planning include:

? Expected Life and Replacement Planning: Users can evaluate assets approaching the end of their lifecycle. For assets flagged for replacement or nearing their projected end of life, Maximo Health offers views like the "Expected Life" or "Plan Costs" to initiate a replacement plan. This process allows for strategic planning of asset replacements to ensure operational reliability and cost-effectiveness

IBM GitHub

Maximo Health integrates data from asset condition monitoring, usage history, and criticality analysis, allowing for a proactive approach to asset management and

enabling organizations to optimize maintenance budgets by planning replacements only when necessary. Thus, option B (Maximo Health) is the correct answer.

NEW QUESTION 10

How can a Master Preventive Maintenance record be associated with multiple non-rotating assets?

- A. Use the Move/Modify Assets action.
- B. Use an Asset Template.
- C. Add the Assets to the Multiple Assets table on the Master Preventive Maintenance record.
- D. Use the Apply Down Hierarchy action on the Master Preventive Maintenance record.

Answer: B

Explanation:

To associate a Master Preventive Maintenance record with multiple non- rotating assets, we can add the assets to the Multiple Assets table on the Master Preventive Maintenance record. This allows us to associate the preventive maintenance schedule with multiple assets, ensuring that the maintenance activities are performed on each of the associated assets as scheduled.

NEW QUESTION 12

What would happen if a Ticket Template with a set of Activities with Job Plans is applied to a Service Request?

- A. The activities become follow-up Work Orders with a Job Plan applied, they are visible from the Related Records tab of the Service Request.
- B. The activities are ignored when applying to a Service Request as Activities are only used with Incidents and Problems.
- C. Each activity will create a Work Order record of class ACTIVITY, no tasks would be created because records of class ACTIVITY cannot have tasks.
- D. Each activity will create a Work Order record of class ACTIVITY with the Job Plans applied, there may be tasks if the Job Plan had tasks.

Answer: D

NEW QUESTION 13

In the Item Master application can an item be associated with a meter?

- A. It can be associated with all items.
- B. A meter field can only be associated with rotating items.
- C. It cannot be associated with any item.
- D. A meter field can only be associated with non-rotating items.

Answer: D

NEW QUESTION 15

Which data storage level provides the sharing of items and company data across multiple organizations?

- A. SET
- B. SITE
- C. ORG
- D. SYSTEM

Answer: A

NEW QUESTION 19

A Service Level Agreement is defined at the System level. What is the purpose of the Organization and Site fields?

- A. They are used to filter the SLAs which a user can see based on Security Group Site access.
- B. They are used to filter the SLAs that can be associated with a Contract.
- C. They are used to filter the SLAs that can be included as Related SLAs.
- D. They are used to filter the SLAs that could be applied to the object.

Answer: D

NEW QUESTION 20

A company wishes to configure Flow Control for Work Orders. In which application can they change the Start Status and Complete Status that will be used?

- A. System Properties
- B. Work Order Tracking
- C. Job Plans
- D. Organizations

Answer: D

Explanation:

The Organizations application is used to configure Flow Control for Work Orders. In this application, you can change the Start Status and Complete Status that will be used.

NEW QUESTION 24

Which two automation script launch points can be triggered directly by a workflow?

- A. Object

- B. Custom Condition
- C. Attribute - '
- D. Action
- E. Integration

Answer: BD

Explanation:

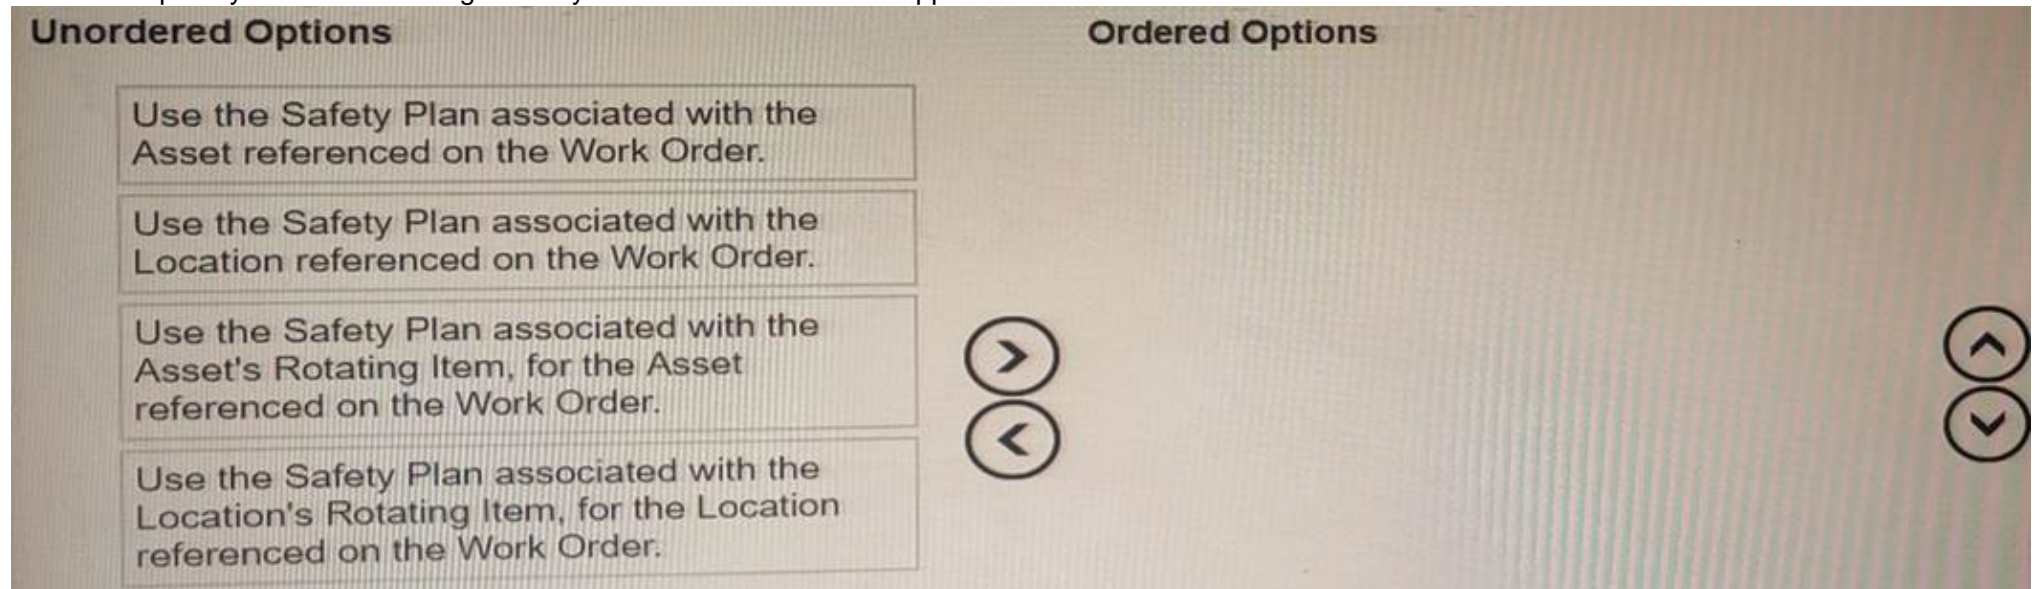

two automation script launch points that can be triggered directly by a workflow are B. Custom Condition and D. Action. An action launch point associates a script with an action and executes when the specified action occurs1. A custom condition launch point associates a script with a condition and executes when the specified condition is evaluated2.
<https://www.ibm.com/docs/en/mam/7.6.0?topic=lp-script-action-launch-point>

NEW QUESTION 27

DRAG DROP

Select all that apply

What is the priority order for selecting a Safety Plan when a Job Plan is applied to a Work Order?

- A. Mastered
- B. Not Mastered

Answer: A

Explanation:

In IBM Maximo Manage v8.0 implementation, the priority order for selecting a Safety Plan when a Job Plan is applied to a Work Order is:

- ? Use the Safety Plan associated with the Asset referenced on the Work Order.
- ? Use the Safety Plan associated with the Location referenced on the Work Order.
- ? Use the Safety Plan associated with the Asset's Rotating Item, for the Asset referenced on the Work Order.
- ? Use the Safety Plan associated with the Location's Rotating Item, for the Location referenced on the Work Order.

This ensures that the appropriate Safety Plan is applied to the Work Order based on the relevant Asset and Location information. If a Safety Plan is not associated with either the Asset or Location referenced on the Work Order, the Safety Plan associated with the Asset's Rotating Item or the Location's Rotating Item may be used as a fallback option. This helps to ensure that worker safety is prioritized and that appropriate precautions are taken when performing work tasks.

NEW QUESTION 30

When viewing a Storeroom in the Manage Inventory Work Center, what are three record sets (tabs) that can be viewed?

- A. Child Storerooms
- B. Year to Date Figures
- C. Counts
- D. Vendors
- E. Reconcile
- F. Balances

Answer: CDEF

Explanation:

In IBM Maximo Manage v8.0 implementation, when viewing a Storeroom in the Manage Inventory Work Center, the three record sets (tabs) that can be viewed are Child Storerooms, Counts, and Balances. These record sets provide different views of the inventory and allow users to manage and track inventory levels and movements.

NEW QUESTION 33

Which type of inspection can be created in the Conduct an Inspection Work Center?

- A. Group
- B. Conditional
- C. Preventive Maintenance
- D. Unscheduled

Answer: D

NEW QUESTION 34

How does a user make a GL account inactive in the Chart of Accounts application?

- A. populate the Expiration Date with a value in the past
- B. select action Add/Modify GL Account
- C. deselect the Active checkbox
- D. select action Change Status

Answer: A

NEW QUESTION 36

In the Security Groups application which security group are all users added to using default settings?

- A. MAXIMOUSERS
- B. DEFLTREG
- C. DEFUSRREG
- D. NEWUSER

Answer: B

NEW QUESTION 41

Calendars can be associated with which three record types?

- A. Items
- B. Locations
- C. Job Plan
- D. Person
- E. Contracts
- F. Assets

Answer: BDF

NEW QUESTION 43

Which Maximo Application Suite add-on enables managing certificates for assets and training requirements for personnel?

- A. Health, Safety and Environment (HSE)
- B. Asset Configuration Manager
- C. Maximo HR Manager
- D. Service Provider

Answer: A

Explanation:

The Health, Safety and Environment (HSE) add-on in the IBM Maximo Application Suite enables managing certificates for assets and training requirements for personnel. This add-on provides functionality for managing health and safety risks, including compliance with regulations, management of environmental incidents, and tracking of personnel certifications and training.

NEW QUESTION 46

Which three Safety Module applications require a Site (SITEID) to be defined for each record? (Choose three.)

- A. Accident Reporting
- B. Danger Zones
- C. Tag Outs
- D. Safety Plans
- E. Hazards
- F. Precautions

Answer: CDF

NEW QUESTION 50

Which application in the IBM Maximo Application Suite uses both AI and remote human- based interactions to help technicians receive on-demand assistance?

- A. Maximo Manage
- B. Maximo Safety
- C. Maximo Assist
- D. Maximo Monitor

Answer: C

Explanation:

Maximo Assist uses both AI and remote human-based interactions to help technicians receive on-demand assistance.

NEW QUESTION 55

What occurs by default when a Desktop Requisition with one direct issue line is submitted?

- A. A assignment is created for the purchase agen

- B. B Desktop Requisition will wait for a Workflow action
- C. A Purchase Requisition will be created.
- D. An authorized person must approve the Desktop Requisition.

Answer: C

NEW QUESTION 60

In which application can a user view a history of changes made to attributes in the Specifications tab?

- A. Locations
- B. Item Master
- C. Purchase Orders
- D. Assets

Answer: D

NEW QUESTION 63

What are the three default classes of a Ticket?

- A. Problem
- B. Activity
- C. Service Request
- D. Change
- E. Incident
- F. Release

Answer: ACE

Explanation:

The three default classes of a Ticket in IBM Maximo Manage are Problem, Service Request and Incident.

NEW QUESTION 67

What are the three usage types in the Inventory Usage application?

- A. MIXED
- B. ISSUE
- C. STAGED
- D. MOVE
- E. TRANSFER
- F. RECEIV

Answer: BCE

Explanation:

In IBM Maximo Manage v8.0 implementation, the usage types in the Inventory Usage application are ISSUE, STAGED, and TRANSFER. ISSUE is used to relieve items from inventory for use in maintenance or other processes. STAGED is used to reserve items for future use. TRANSFER is used to move items from one inventory location to another, typically within the same organization.

NEW QUESTION 70

In what Maximo Manage application are the specifications of an asset for calibration entered?

- A. Classifications
- B. Asset
- C. Data Sheet Template
- D. Improvements

Answer: C

Explanation:

In IBM Maximo Manage, the specifications of an asset for calibration are entered in the Data Sheet Template application.

NEW QUESTION 72

At which data storage level are locations, assets and storerooms defined?

- A. Set
- B. Site
- C. System
- D. Organization

Answer: B

Explanation:

Locations, assets and storerooms are defined at the Site level in IBM Maximo Manage.

NEW QUESTION 73

What information can be updated in the Master PM application for an associated Preventive Maintenance record (PM)?

- A. Work Order Status
- B. PM Forecast
- C. Generate Work Orders
- D. PM Hierarchy

Answer: D

Explanation:

In IBM Maximo Manage v8.0, the Master PM application is used to manage and control multiple Preventive Maintenance (PM) records through a central template known as the Master PM. The primary purpose of the Master PM application is to provide a standardized structure for PMs and streamline the maintenance process by enabling centralized updates to associated PM records.

The key updates that can be made to associated PMs through the Master PM application include:

- ? Frequency and Scheduling Information - The Master PM can dictate the time- or meter-based frequency at which work orders are generated, and apply this to all associated PMs (or selectively if desired)
- ? Job Plans and Sequence - Users can specify job plans on a sequential basis, which helps in scheduling varied levels of maintenance activities. Changes to the job plan sequence in the Master PM can be propagated to all associated PMs
- ? Seasonal Dates - Active dates or seasonal adjustments to maintenance activities can be set up within the Master PM, and these adjustments can be transferred to associated PMs as necessary
- ? PM Hierarchy - The Master PM application allows users to configure and manage PM hierarchies, which helps in establishing parent-child relationships among PM records.

This hierarchical structure is especially useful in organizing maintenance tasks for complex assets with interrelated components, ensuring that all relevant maintenance tasks are triggered appropriately

Thus, option D (PM Hierarchy) correctly represents the feature that can be updated in the Master PM application for associated PM records.

NEW QUESTION 74

When creating a new Inspection form, a client requires a Work Order to be created if certain responses are recorded. Which two actions are required for this to be achieved?

- A. Choose Work Order on question action.
- B. Make the question response interactive.
- C. In Form Settings add an Action Script.
- D. In the Question Options, set the Require action flag.
- E. Create an escalation on the QRESPONSE Object.

Answer: CD

NEW QUESTION 76

Where in Maximo can the Server IP Addresses and Logged in users be observed?

- A. Database Configuration application
- B. Administration Work Center
- C. Server Management Consol
- D. Maximo Management Interface Work Center

Answer: D

Explanation:

In Maximo Manage, the Server IP Addresses and Logged in users can be observed in the Maximo Management Interface Work Center.

NEW QUESTION 79

In the Manage Inventory Work Center a pick list can be created, its initial status is Entered. Which three actions will cause the status to change to in Progress? (Choose three.)

- A. Picked
- B. Restocked
- C. Prepared
- D. Issued
- E. Staged
- F. Returned

Answer: ADE

Explanation:

In the IBM Maximo Manage Inventory Work Center, a pick list starts with a status of "Entered." To change this status to "In Progress," certain actions need to be performed on the items within the pick list. The following actions trigger the transition from "Entered" to "In Progress":

- ? Picked: When items on the pick list are marked as "Picked," it signals that the inventory has been gathered and is ready for further processing. This action moves the pick list status to "In Progress"
- ? Staged: Staging items on the pick list moves them to an intermediate location or prepares them for issuance. Moving items to this state changes the pick list status to "In Progress" as well
- ? Issued: Issuing items from the pick list directly fulfills the reservation and removes the inventory from the system. This also updates the pick list status to "In Progress" as it reflects the inventory movement out of storage

Thus, actions A (Picked), D (Issued), and E (Staged) are the correct answers, as they all cause the pick list to shift from "Entered" to "In Progress."

NEW QUESTION 80

In the Purchase Orders application, what is the result of the action Complete Receipts?

- A. It will set the Receipt status to COMPLETE, but will not create the receipt lines.
- B. It will send a notification to the requester that the Purchase Order has been completed.
- C. It will set the Receipt status to COMPLETE and create the receiving lines for the remaining items.

D. The status of the Purchase Order will be changed to CLOSED.

Answer: A

NEW QUESTION 84

In the Organizations application, which action is used to create Inventory Usage documents for new reservations?

- A. Inventory Usage Options
- B. Inventory Options
- C. Work Order Options
- D. Reservation Options

Answer: B

Explanation:

In the Organizations application in IBM Maximo Manage, you should use Reservation Options to create Inventory Usage documents for new reservations.

NEW QUESTION 87

When a Service Level Agreement is applied to a WORKORDER object, what Commitment Type will be missing from the lookup?

- A. DOWNTIME
- B. DELIVERY
- C. AVAILABILITY
- D. CONTACT

Answer: D

Explanation:

When a Service Level Agreement (SLA) is applied to a WORKORDER object in IBM Maximo Manage v8.0 implementation, the Commitment Type that will be missing from the lookup is DELIVERY. The other possible Commitment Types in Maximo Manage are DOWNTIME, AVAILABILITY, and CONTACT.

NEW QUESTION 88

Which two domain types support lookups? (Choose two.)

- A. NUMERIC RANGE
- B. TABLE
- C. SYNONYM
- D. UPPER
- E. INTEGER

Answer: BC

NEW QUESTION 90

What are three available associations in the Hazards application?

- A. Lock Outs
- B. Material Safety Data Sheets (MSDS)
- C. Hazardous Materials
- D. Tag Outs
- E. Precautions
- F. Safety Plans

Answer: CDE

Explanation:

The Hazards application in IBM Maximo Manage v8.0 allows users to associate Material Safety Data Sheets (MSDS), Hazardous Materials, and Precautions with a particular hazard. These associations help in managing safety information related to hazards and in ensuring compliance with safety regulations.

NEW QUESTION 91

In the Master PM application, which two meter-based fields can be updated on associated Preventive Maintenance records? (Choose two.)

- A. Estimation Type
- B. Current Meter Reading
- C. Generate WO Ahead By
- D. Meter Type
- E. Frequency

Answer: CE

Explanation:

In the IBM Maximo Master PM application, certain meter-based fields can be updated on associated Preventive Maintenance (PM) records when changes are made to the Master PM. Specifically:

? Generate WO Ahead By: This field sets a lead time for generating work orders

ahead of their scheduled due date based on meter readings. Updating this field on the Master PM will adjust when work orders are generated on associated PMs

? Frequency: The frequency determines how often maintenance should occur based on meter readings. When the frequency is updated on the Master PM, this adjustment is applied to associated PMs, ensuring they reflect the updated maintenance interval

These updates allow for consistent and centralized management of preventive maintenance intervals and scheduling, essential for meter-based maintenance tracking in Maximo. Other fields like "Current Meter Reading" or "Meter Type" are not directly updated on associated PMs through the Master PM.

NEW QUESTION 94

When setting up Premium Pay Codes in the Crafts application, what are the three rate types available? (Choose three.)

- A. Formula
- B. Hourly
- C. Increment
- D. Weekend
- E. Overtime
- F. Multiplier

Answer: BCF

NEW QUESTION 99

Where can the Asset Up/Down status be modified?

- A. use the Move/Modify Asset action in the Assets application
- B. from the Report Downtime action on the Work Order
- C. use the Move/Swap/Modify action on the Work Order
- D. use the Failure Reporting option on the Work Order

Answer: B

NEW QUESTION 101

In the Work Order Tracking application, a Work Order is generated from a Preventive Maintenance (PM) record. How is the target finish date calculated?

- A. the Job Plan finish date
- B. the PM target finish date
- C. the Work Order target start date + the Job Plan duration
- D. the Job Plan start date + the Job Plan duration

Answer: C

Explanation:

In the Work Order Tracking application, when a Work Order is generated from a Preventive Maintenance (PM) record, the target finish date is calculated as the Work Order target start date + the Job Plan duration.

NEW QUESTION 106

When reconciling current inventory balances with physical counts, which two Inventory Usage transactions performed since the physical count are considered when calculating the current balance? (Choose two.)

- A. Shipped items
- B. Complete items
- C. Rotating items
- D. Staged items
- E. Obsolete items

Answer: AB

NEW QUESTION 111

In which two places can Service Request Categories be created for use in the Service Request Work Center?

- A. Classifications Application
- B. Administration Work Center
- C. Business Analysis Work Cen
- D. Service Desk Application
- E. Service Catalog Application

Answer: AB

Explanation:

<https://www.ibm.com/support/pages/creating-service-request-categories-and-category-options-service-request-work-center#:~:text=In%20the%20Service%20Request%20Work%20Center%2C%20an%20administrator,Object%20parameter%20and%20Asset%20parameter%20set%20to%20SR.>

In IBM Maximo Manage v8.0, Service Request Categories for the Service Request Work Center can be created in the Administration Work Center and through the Classifications Application:

? Administration Work Center: The Service Request Configuration section within the

Administration Work Center enables administrators to set up and customize service request categories specifically for use in the Service Request Work Center.

This involves defining properties, categories, and issues users select when creating service requests

? Classifications Application: Categories are also managed by setting up

classifications associated with service requests in the Classifications application. When a classification is created with associations to the "Asset" and "SR"

(Service Request) objects, it becomes available as a category option in the Service Request tool. This approach allows issues to be assigned to specific categories using ticket templates tied to classifications

These configurations provide a structured way to set up service categories that enhance service request management by ensuring users select relevant, predefined options during request creation.

NEW QUESTION 112

In the Inventory Usage application, which three statuses will activate the Split Usage Quantity feature? (Choose three.)

- A. CANCELED
- B. RETURNED
- C. ENTERED
- D. STAGED
- E. COMPLETE
- F. SHIPPED

Answer: DEF

NEW QUESTION 115

In the Automation Scripts application, which launch point can be triggered?

- A. Formula
- B. Escalation
- C. Integration
- D. Cron Task

Answer: C

Explanation:

In the IBM Maximo Automation Scripts application, several types of launch points can be configured to trigger scripts, including Integration launch points. The supported launch points in Maximo are:

? Object Launch Point: Triggers on events related to specific objects (MBOs), such as creation, modification, or deletion

? Attribute Launch Point: Triggers when specific attributes within an MBO are accessed or modified

? Action Launch Point: Executes custom actions, often triggered by workflows or escalations, allowing for automation without custom Java code

? Condition Launch Point: Activates when a defined condition is met, commonly used for security or workflow condition logic

? Integration Launch Point: Designed specifically to interact with Maximo Integration Framework (MIF) components, including publish channels, enterprise services, and invocation channels. This enables automation scripts to respond to data exchanges between Maximo and external systems, making it a powerful tool for integration-related automations

The Integration launch point is thus the correct answer as it allows scripts to be triggered by data flow events through MIF.

NEW QUESTION 117

What happens if the Specification of a rotating item is updated in the Item Master application?

- A. New locations and assets that reference the rotating item will inherit the changes, there are no changes to existing locations and assets.
- B. By default, existing assets referencing the rotating item will be updated with the changes, there are no changes to existing locations.
- C. By default, all locations and assets referencing the rotating item will be updated with the changes.
- D. Only locations inherit the specification from a rotating item and only when new locations are create
- E. Assets only inherit the specification from an asset template.

Answer: C

Explanation:

It works on both locations and assets. <https://maximosecrets.com/2020/08/17/item-and-locations/> and <https://maximosecrets.com/2020/08/03/item-specifications-for-rotating-items/>

NEW QUESTION 118

In which Maximo add-on can the Build Data Interpreter (BDI) be found?

- A. Maximo Building Information Modeling
- B. Maximo Asset Configuration Manager (ACM)
- C. Maximo Infrastructure and Building Modeler
- D. Maximo Health, Safety and Environment

Answer: B

NEW QUESTION 120

In the Work Order Tracking application, when using the Select Value on the Safety Plans field from where can the safety plan be derived?

- A. Safety Plans that are referenced in the Location Hierarchy.
- B. The Safety Plan that is associated with the Preventive Maintenance record.
- C. It always shows Active Safety Plans that are in the same site as the work order.
- D. Safety Plans where the Location or Asset on the Work Order is referenced as a Work Asset on the Safety Plan.

Answer: D

NEW QUESTION 122

.....

Thank You for Trying Our Product

We offer two products:

1st - We have Practice Tests Software with Actual Exam Questions

2nd - Questions and Answers in PDF Format

C1000-132 Practice Exam Features:

- * C1000-132 Questions and Answers Updated Frequently
- * C1000-132 Practice Questions Verified by Expert Senior Certified Staff
- * C1000-132 Most Realistic Questions that Guarantee you a Pass on Your First Try
- * C1000-132 Practice Test Questions in Multiple Choice Formats and Updates for 1 Year

100% Actual & Verified — Instant Download, Please Click
[Order The C1000-132 Practice Test Here](#)
